

World Bee Day 2020 Art/Photography Competition

World Bee Day is celebrated on May 20th with the aim of raising awareness of the importance of protecting and preserving bees and other pollinators. Without bees, we might not have flowers, fruits, vegetables, and other plants. In fact, bees are very important for our eco system. Sadly, the bee population is reducing and we would like you to help raise awareness of the importance of these little creatures.

What to do

Create a piece of art inspired by the theme "Where would we BEE without pollinators?" - let your imagination run WILD! You can experiment with textiles, sculpture, recycled and eco-friendly materials, collages - anything goes!

Alternatively, you could enter photographs of bees or other pollinators at work in your garden or nearby to your home.

To Enter

Please email your photographs or a photo of your artwork to yearrec@stedward.bham.sch.uk with the heading World Bee Day 2020 Competition. 1st prize a jar of locally produced honey and a packet of wildflower seeds to encourage bee pollination. 2 x runners up prizes of wildflower seeds.

Closing Date Friday 29th May

Further information about bees can be found on the school website under the Eco Warriors section.
