Dear Joanne

KS2 OUTCOMES 2019

At Birmingham City Council we are committed to supporting schools and academies to give children in Birmingham the best start in life. Academic standards are an important factor in this. We believe that good KS2 test results are vital in giving children a solid base upon which they can make a positive transition to secondary school; this is of course so important for their future well-being.

We are delighted to write to you regarding the outcomes achieved by Year 6 children who recently left your school at the end of their primary education. Interim level data collated on results day by Birmingham City Council indicate that the standards achieved in reading, writing and mathematics by your Year 6 pupils in 2019 were well above the national average. We would like to take this opportunity to congratulate both pupils and staff on this fantastic achievement – well done!

Please accept our thanks to you and your staff for all you are doing to drive standards. In doing so, you are enhancing the life chances of children across our city.

Yours sincerely

Dr Tim O'Neill
